**#37121f - Piecing**

Create a fun heart block using two different sewing techniques, which are combined to create a contemporary design with an interesting construction process. Easy curved piecing (which is trimmed to size so everyone can achieve great results) and more traditional straight piecing are both employed to great effect in this Happy Heart block. In addition to learning new sewing techniques, you will choose your fabrics in an intuitive and spontaneous way to achieve a dramatic and balanced central motif. Interesting and varied border treatments will be discussed to enable you to complete a small quilt or much larger bed-sized project! You don't want to miss this fun and informative opportunity!
