#48505 - Quilting/Finishing-HOME MACHINE

In this innovative class, students will learn everything they need to know about doing machine trapunto work using a walking foot on their sewing machine. This class is designed for all levels of quilting experience because Mark takes all the fear out of learning to do machine trapunto work. This method is simple and fun and students will be amazed at the results of their own work. As a bonus, Mark will teach ReMARKable Tips at the end of the class, covering most everything he does as a quilter. Don't miss this inspiring class!
