

Designing with Freeform Shapes

Gail Garber

All levels

Wednesday, 1:00 - 2:00 p.m.

Eisenhower Room

#52803 - Lectures

Do you want to break out from using patterns made by others? This is the lecture for you! Gail will explore freeform shapes and asymmetry via a series of demonstrations using a flexible curve and a drafting compass. You'll learn how Gail takes her design from idea to art, and she will give you the tools to do the same. Design and stitching techniques will be demonstrated in this eye-opening lecture.
