

**Mega Impact with Micro Quilting
on a Sit-Down Longarm Machine**

Sarah Thomas

Beginner, Intermediate

Thursday, 1:00 - 4:00 p.m.

Jefferson Room

#58527 - Quilting/Finishing-LONGARM

Add dimension, interest, and personality to your quilt design with micro quilting! Feel the difference between stitch regulation settings and experiment with many designs as you stitch miniature in this class. From micro-stippling to pebbles, radiator coils, and more, Sarah will help you navigate through the many miniature options and also combine average-sized designs with micro quilting to achieve a stunning finished result. Just like handwriting, everyone's micro-quilting will have its own unique variations, so there's no wrong way to achieve your micro quilted 'signature.' We'll also discuss and demonstrate how thread can impact and change the appearance of your quilting. You will be sharing a BERNINA Q20 sit-down longarm machine with a partner in this hands-on class. The skills taught in this class are transferable to your home domestic sewing machine.
