**#58509 - Quilting/Finishing-LONGARM**

This is a three-step class to help you master the beloved feather. If you are new to the longarm world or have ever wanted to learn the art of mastering feathers without the extra work of marking or the extra cost of stencils and pantograph designs, then this is the class for you. This is a free-motion class that takes you step-by-step from stem to feathered finish, with extra tips and tricks and a multitude of inside feather filler designs and spine ideas that allow you to work both sides of the feather in the same direction. The feathers learned in class may be used for borders, blocks, and sashings. So put away your feather fears and come fly with us as we master the art of the feather together!
